## FTEK Fuel Tech Inc (NASDAQ GS)

468% in Profit in 28 Months

Our subscribers received a **Market Watch Alert** in October 2004 with a **Trigger Alert** buy price of \$6.00 which was eventually hit in February 2005. The **Take Off Alert** of \$7.00 was hit several months later in June 2005. Our **Sell Alert** of \$ 34.10 came in June 2007 where the price moved from \$30.00 to \$38.20 in two days. We used increase heavy volume and the 50% selling rule to close out the trade several days later. In this stock we held through the early pull back in mid 2006 because the rise was never equal to the base and consolidation of 8 years.
